13 April 1999

Dear Mr. Jaffe,

I am writing to you concerning the forced molting of layer hens. Although I am a vegetarian I do eat the occasional egg. I just read an article on forced molting and once again I am glad that I only buy free range eggs. As if the lives of those poor chickens isn't bad enough they are forced to molt!!! This not only makes the hens sick it also can cause salmonella in the eggs. I support the ban on forced molting (docket 98P-0203/CP).

Thank you,

Sincerely,

98P-0203
